WORK EXPERIENCE

IT Associate Software Development Engineer Delta Air Lines, Inc.

11/2021 - Present

Bloomington, Minnesota

Achievements/Tasks

- Code Improvements and Fixes: Actively involved in identifying and implementing fixes to the existing codebase. This includes debugging issues, optimizing performance, and enhancing functionality to meet business requirements.
- AWS Migration: Played a key role in migrating on-premises applications to AWS cloud infrastructure. This involved planning, executing, and managing the migration process, while ensuring minimal disruption to the business.
- Codebase and Database Maintenance: Responsible for maintaining code and databases related to revenue and inventory management.
- Responding to Pager Duty alerts: Demonstrated ability to respond to critical incidents promptly and effectively in a production environment, ensuring minimal downtime and resolving issues efficiently.
